

RUSSELL'S AUTOMOTIVE is pleased to announce the availability of our new E-BRAKE KIT! If you have a 1933-1959 Chrysler, DeSoto, Dodge, Plymouth that still uses the Factory Rear Axle, but have changed the drivetrain and lost the factory Emergency brake, Our kit will add a emergency brake back on your vehicle! We use a Mechanical WILWOOD caliper and specially engineered components to bolt an e-brake to your OE FACTORY MOPAR REAR AXLE from 1933-1959! This kit when installed will hook up directly to your existing Factory E-brake cable. You can order one today - send us an e-mail at russells.adapters@gmail.com!
