ORDER BY DUCO® STOCK OR DULUX® CODE NUMBER

NOTE: Every possible precaution is taken to provide the refinish trade with accurate DUCO® or DULUX® color matches; however, it should be noted that it is not always possible to make close matches in DUCO to DULUX and vice versa. Due to circumstances beyond our control, we cannot be responsible for inaccurate color matches resulting from changes in standards by automobile manufacturers without our knowledge, change of car colors on aging, and color variances caused by application methods, etc. We will assume responsibility only for factory color matches to established Du Pont color standards.

As the accuracy of color matches made with the Du Pont Color Blending Service depends on the individual operating the equipment, we will assume responsibility only for the uniformity of our mixing enamels and lacquers.

SEE REVERSE SIDE FOR 1958 CAR COLORS
